

Queen Elizabeth's

Grammar School,

Barnet

FOUNDED 1573

TESTIMONIAL TO M.J. MORTLOCK ON HIS  
LEAVING SCHOOL IN JULY 1934.

M.J. Mortlock has been a pupil at this School since September 1928. He entered the School with a Scholarship, has been consistently well placed in his various Forms, passed School Certificate with four credits at an earlier age than is usual, and after one and a half years in the Sixth Form passed London University Higher School Certificate - also at a year below the usual age. His academic record, therefore, is above the average, and he has been a most thorough and consistent worker of an all-round nature.

His character has always been thoroughly good and he is a useful member of the School Cricket XI.

I would recommend him most strongly for any official post, (e.g. with a local Government Authority) for he has an essentially methodical mind and pays unusual attention to detail and to fact. He is also of the type that would like routine work. But I can also recommend him to any employer who requires consistent and reliable work.
